TO WHOM IT MAY CONCERN

TE Connectivity global product line for DC solar connectors will be shifted from TE's Industrial business unit to TE's Energy business unit. The effective date will be on 30th of September 2021. This will include a shift in the account management, which will shift from Alex Tseng to Ricky Lo. All new inquiries after 30th, September 2021 should be directed at the new account management. Until then, business units will coordinate any requests seamlessly internally.

We apologize for any inconvenience caused by this organizational change and will strive to minimize any impact on customer experience and operations.
Yours sincerely,

A handwritten signature in blue ink, appearing to be 'Lung, Kwan'.
