Solar Clip
Greatly improve the freedom of wiring design!

Greatly improve the installation efficiency of field wiring without tools;
No environmental pollution wastes; Neat and beautiful wiring

3 types of products which can put the cable on the inside and outside of the
solar panel frame in parallel or crosswise

100% resin material; Eliminates concern of corrosion of dissimilar metals
when using the clip and frame (no damage to the frame)

Use of polyoxymethylene resin material, with outdoor weather resistance
protection for more than 20 years

Adjustable lock pin (suitable for frames with different width of 20 ~ 35mm;
Firm and reliable

● Application Examples
Inside the frame,
wiring in parallel

Outside the frame,
wiring in cross

Outside the frame,
wiring in parallel

● Installation Method of Solar Clip
① **Clip body assembly**

Insert the lock pin into the lock pin hole of the clip body as shown in the figure, until the sound of "clatter" is heard 1~2 times.

② **Clip mounting to the frame**

The clip assembly prepared in Figure 1 is clamped onto the solar panel frame.

③ **Locking and fixing**

Finally, press the lock pin completely into the lock pin hole to finish the installation.

● Product Specification of Solar Clip

Material: Weather Resistant polyoxymethylene

Applicable frame width: 20 ～ 35mm

Applicable frame thickness: 1 ～ 3mm

Applicable cable number: 1 ～ 2 pieces

Applicable outer diameter of cable : φ6.0 ～ 7.5mm
（applicable to 3.5, 5.5SQ ＊ ）

＊ Please confirm the outer diameter of cable
